"A satisfied customer is the best business strategy of all"

- Michael LeBoeuf

Deepak Shah's brainchild, Deepak Overseas, began operations in 1989. He worked as a franchise manager for Brand 444 early in his career. Deepak Shah saw the immense potential in the basmati rice business, and after 11 years of service to the industry, they have managed to establish themselves as the industry's leading name by establishing their own brand, Barkat.

Deepak Shah

A sudden rise in the demand for flavorful, aromatic Biryani resulted in the creation of Barkat. Even though Biryani is extensively consumed, few have been able to replicate its true elegance and flavor. "A Biryani is Only as Good as the Rice Used". This quote led to the Birth of Barkat, a Basmati Rice provider that recognized the gap that existed between what consumers desired to eat and what was available in the market. Being in the business for over 24 years, Barkat has become synonymous with Biryani rice and continues to flourish with each passing day.
